

DAVIS GENEALOGY CLUB

OCTOBER 2015

Put on Your Historian Hat

Speaker: Marian Kile

Being a good family historian for your family requires being a good *ancestor* as well as a good researcher. In addition to discovering our family's past, we need to document our current family belongings, records, and more. This program will give many different ideas of what we might be overlooking to capture valuable insight for our future generations.

Our speaker got "hooked" on genealogy at the end of 2005, and fortunately for us, she has been sharing what she's learned ever since. She gives classes at the Sacramento FamilySearch Library on Eastern Avenue and throughout the community.

Marian Kile is a returning speaker to our club, having shared with us these wonderful presentations in the past, "Organize Our Research" and "Getting Started Writing Family Stories". Marian is an experienced presenter who creates a supportive learning environment for her classes. Please come and be inspired to "Put on Your Historian Hat"!
